Ekrem Murat Esmer

Postdoctoral Researcher

Department of Physics & Astronomy
University of Kansas

1251 Wescoe Hall Dr., Room 2058
Lawrence, KS 66045, USA

ekrem@ku.edu | ekremmuratesmer@gmail.com | physics.ku.edu/esmer-ekrem-m

EMPLOYMENT

- **Postdoctoral Researcher**, University of Kansas, Lawrence, KS — June 2026 – Present
- **Postdoctoral Research Associate**, Washington University, St. Louis, MO — July 2024 – June 2026
- **Research Assistant**, Ankara University, Ankara, Turkey — January 2015 – June 2024

EDUCATION

- **PhD in Astronomy and Space Sciences**, Ankara University, Ankara, Turkey — September 2022
  Thesis: *Orbital Stabilities of the Substellar Objects in Multibody Stellar Systems*
  Supervisor: Prof. Selim O. Selam
  Co-supervisor: Prof. Alexandre C. M. Correia (University of Coimbra, Portugal)
  Visiting PhD Student, University of Coimbra, Portugal — 2018–2019
- **MSc in Astronomy and Space Sciences**, Ankara University, Ankara, Turkey — 2015
  Thesis: *Timing Method to Discover Exoplanets in Multiple Star Systems*
  Supervisor: Prof. Selim O. Selam
  Additional graduate coursework through the Erasmus Mundus Program — 2012–2014
  University of Innsbruck, Austria
  University of Padova, Italy
  University of Belgrade, Serbia
- **BSc in Astronomy and Space Sciences**, Ankara University, Ankara, Turkey — 2011

GRANTS, SCHOLARSHIPS AND AWARDS

Research Project Grants

- **Co-Investigator**, An Exoplanet Search Around Evolved Binary Star Systems — 2023–2026
  Funder: The Scientific and Technological Research Council of Turkey (TÜBİTAK)
  Program: 1001 Research Projects, ID: 122F358
  Contribution: Founded on my doctoral research; major role in project development and execution; official 50% intellectual share.
- **Co-Investigator**, Determining the Limits for Direct Imaging of Objects Around Binary Star Systems
  Funder: Council of Higher Education (YÖK) — 2023–2026
  Program: Research Universities Support Program, ID: FBA-2023-2698
- **Researcher**, Exoplanet Discovery via the Timing Method — 2018–2021
  Funder: The Scientific and Technological Research Council of Turkey (TÜBİTAK)
  Program: 1001 Research Projects, ID: 118F042
  Contribution: Proposal preparation, reports, and research execution; formally supported in the final phase.

Fellowships

- McDonnell Center for the Space Sciences Postdoctoral Fellowship 2024–2026
  Washington University in St. Louis, MO
- National Postdoctoral Research Fellowship Program (TÜBİTAK 2218) 2022
  Awarded but not initiated.
- International Research Fellowship Programme for PhD Students (TÜBİTAK 2214-A) 2018
  University of Coimbra, Portugal. Research on orbital dynamics with Prof. Alexandre C. M. Correia.

Awards

- PhD Performance Award 2024
  Ankara University Graduate School of Natural and Applied Sciences
- Best Oral Presentation Award, XXII National Astronomy Congress 2022
  Awarded by the Turkish Astronomical Society.
  Orbital Stability of Exoplanetary Systems Discovered via the Eclipse Timing Variation Method

Scientific Activity Support

- Grant Program for Participation in Scientific Meetings Abroad (TÜBİTAK 2224-A) 2023
- International Scientific Activity Support Program (UBED), Ankara University 2018, 2023

TEACHING EXPERIENCE

Lecturer

- Numerical Analysis in Astronomy I, Ankara University Fall 2023
- Numerical Analysis in Astronomy II, Ankara University Spring 2023, 2024
  Lectures on numerical methods in astronomy using Python, from introductory programming to advanced scientific packages applicable to graduate-level research.

Guest Lecturer

- Ampersand: Gateway Expeditions Into Exoplanets, Washington University 2024, 2025

Teaching Assistant 2015–2024 (excluding Fall 2018 and Spring 2019)

- Numerical Analysis in Astronomy I, Ankara University Fall 2016–2022
- Numerical Analysis in Astronomy II, Ankara University Spring 2015–2022
- Practical Astronomy, Ankara University Spring 2018–2024
- Observational Astronomy, Ankara University Spring 2015–2018, 2020

Observatory Instructor 2015–2022 (excluding Fall 2018 and Spring 2019)

- Weekly instruction in photometric and spectroscopic observing techniques at Ankara University Observatory.

Curriculum and Educational Development

- Contributor, ExoCore Open Science Curriculum (NASA Open Science Initiative) 2025
  Developed interactive Jupyter-based educational materials on celestial dynamics for open-access training in exoplanet research.
- Member, Curriculum Development and Revision Committee, Ankara University 2018

RESEARCH MENTORING

Mentored undergraduate and graduate students in research methods and scientific analysis, including mentorship across academic stages and support with fellowship applications and recommendations.

- **Md Abdullah Zaman** (Graduate Student, University of Kansas) – Ongoing research collaboration, mentoring, and methodological guidance; Zaman et al. (under review).
- **Selçuk Yalçınkaya** (MSc/PhD, Ankara University) – Extensive research collaboration, mentoring, and scientific guidance across multiple publications; guidance on successful fellowship application.
- **Anıl Temelci** (MSc, Ankara University) – Thesis research and analysis; Temelci et al. (2026).
- **Furkan Akar** (MSc, Ankara University) – Research guidance under TÜBİTAK project 122F358; Akar et al. (2025).
- **Ezgi Sertkan** (MSc, Ankara University) – Research guidance under TÜBİTAK project 122F358; Sertkan et al. (2025).
- **Eylül Demir** (MSc, Ankara University) – Thesis research and analysis under TÜBİTAK project 122F358; Demir et al. (2023).
- **Fatemeh Davoudi** (PhD, University of Zanjan) – Support in data analysis and interpretation; Davoudi et al. (2021).
- **Yasemin Aladağ** (MSc, Çukurova University) – Research guidance under TÜBİTAK project 118F042; Aladağ et al. (2021).

PROFESSIONAL ACTIVITIES

Observing Experience and Awarded Programs

- Principal Investigator, ground-based observing programs (2009–2026).
  Awarded 148 observing nights across 18 accepted projects at Ankara University Observatory and TÜBİTAK National Observatory (TUG), including 127 nights of photometry (T35, T40, and T100) and 21 nights of spectroscopy (T80). Programs focused on exoplanet transits, eclipsing-binary monitoring, eclipse timing, and searches for additional companions. Personally conducted most observations and coordinated others with collaborators.
- Co-Investigator, *Refining the Core Mass Fraction of HD 93963 A b*
  NSF NOIRLab Observing Program, 2026B-502842 (Accepted, 2026B).
- Co-Investigator, *High Resolution Spectral Observations of HW Virgo*
  Nordic Optical Telescope (NOT), Program 69-407 (Observed, 2024).
- Observer, Keck Planet Finder Community Cadence Observations, 10 nights 2025 – 2026

Peer Review and Academic Evaluation

- Scientific Committee Member, RTT150 Time Allocation, Turkish National Observatories 2026
- Panelist, NOIRLab NN-EXPLORE Time Allocation Committee (TAC) 2026
- Reviewer, AAS Chambliss Astronomy Achievement Student Awards 2025
- Member, Edwin Thompson Jaynes Fellowship Selection Committee, Washington University 2024
- Research Grant Proposal Reviewer, National Science Centre Poland (OPUS-26) 2024
- Referee for Scientific Journals (12 verified reviews, Web of Science): MNRAS, Ap&SS, RASTI, PASA, and EPJC.

Scientific Organization and Service

- Scientific Organizing Committee (SOC) Member, IOTA/ME 2nd Workshop on Photometric Study of Binary Systems and Exoplanet Transits, Çukurova University, Adana, Turkey 2020
- Scientific and Local Organizing Committees (SOC/LOC) Member, IOTA/ME Photometric Observations of Exoplanet Transits Workshop, Ankara University, Ankara, Turkey 2018
- Technical Team Member, Ankara University Observatory 2015–2022
  Supported telescope installation, maintenance, observing operations, and student training.

Research Collaborations and Working Groups

- Member, ExoLab Research Group (PI: Ian Crossfield), University of Kansas Since 2026
- Former Member, Astromusers Research Group (PI: Tansu Daylan), Washington University in St. Louis 2024–2026
- Member, TESS Follow-up Observing Program (TFOP) Since 2025
- Member, Keck Planet Finder (KPF) Observers Group Since 2025
- Member, Vera C. Rubin Observatory LSST Science Collaborations: Transients and Variable Stars (TVS); Stars, Milky Way & Local Volume (SMWLV) Since 2025
- Member, PLATO Working Group WP 112510 – Photometric Detection of Circumbinary Planets Since 2023
- Former Member, Center for Physics (CFisUC), University of Coimbra, Portugal 2018–2019
  Conducted doctoral research on orbital dynamics, contributing to my PhD thesis and Esmer et al. (2021).

PROFESSIONAL MEMBERSHIPS

- International Astronomical Union (IAU) Since 2022
- American Astronomical Society (AAS) Since 2024
- Division for Planetary Sciences of the AAS Since 2024
- European Astronomical Society (EAS) Since 2022
- Turkish Astronomical Society (TAD) Since 2022

OUTREACH

Public Engagement and Science Communication

Extensive experience in astronomy outreach and science communication, including public lectures, media appearances, and educational activities reaching tens of thousands. Provided astronomy education to primary and secondary school students, including those from disadvantaged backgrounds.

- Science Communicator, SciFest, Saint Louis Science Center, St. Louis, MO May 30, 2026
- Organizer, Astronomy on Tap – St. Louis, MO 2024–2026
- Social Media Editor, Ankara University Observatory (AUO) 2018–2024
- Organizer and Instructor, Public Events of AUO 2015–2024

- Instructor, School Visits to AUO 2015–2024
  Astronomy education for primary – secondary school students, including groups from disadvantaged schools.
- Organizer and Instructor, Public Events on Special Celestial Events, AUO 2007–2024
- Moderator, Online Astronomy Outreach Events, AUO 2019–2022
- Instructor, AUO Summer Schools 2015–2019
- Task Coordinator, Public Outreach Events, AUO 2015–2018
- Instructor, Astronomy Festivals in Turunç, ITAP 2011
  Provided astronomy instruction and educational activities for students from disadvantaged schools under TÜBİTAK Science in Society Project 111B124.
- Founding Member, Astrobiology Journal Club, Ankara, Turkey 2010
- Organizer, International Year of Astronomy 2009 Events, AUO 2009
- Member, Ankara University Astronomical Research Society 2007–2009

Popular Science Publications

- Article on the discovery of two planets in the Kepler-451 system, *Bilim ve Teknik* 2019
- Three popular science articles, *TÜBİTAK Bilim Genç* 2018–2019
  - TRAPPIST-1 Gezegenlerinde Su Bulunuyor Olabilir
  - Beta Pictoris Sistemini Gözleyen Nanouydu: PicSat
  - Ötegezegen Avcısı: TESS Uzay Teleskobu

PUBLICATIONS

Publication Metrics (as of October 2026)
35 peer-reviewed publications (6 first-author) | 279 citations (ADS)
Full publication record: ADS/SciX | Google Scholar | ORCID

INVITED TALKS AND SEMINARS

- **What Eclipsing Binaries Can Tell Us About Their Hidden Worlds**
  St. Louis Astronomical Society Meeting, St. Louis, MO, USA, May 15, 2026.
- **Characterizing the Multiplanetary System TOI-1233**
  KU Astro/Space Seminar, University of Kansas, Lawrence, KS, USA, Apr 17, 2026.
- **Circumbinary Planets and Brown Dwarfs from TESS Eclipse Timing Variations**
  TESS Science Talk Series, MIT, Cambridge, MA, USA, Feb 18, 2026.
- **Searching for Circumbinary Planets and Brown Dwarfs with TESS**
  Structure and Evolution of Astronomical Objects Workshop, Ege University, Turkey, Dec 3, 2025.
- **Searching for Circumbinary Planets Using Eclipse Timing Variations**
  WUCAP Seminar Series, Washington University in St. Louis, MO, USA, Oct 10, 2025.
- **Finding Circumbinary Planets Using Binary Star Eclipses**
  WUCAP Seminar Series, Washington University in St. Louis, MO, USA, Nov 22, 2024.
- **Discovery of New Worlds**
  Space Week, Physics Research Society, Ankara University, Ankara, Turkey, May 24, 2024.
- **Sun and the Solar System**
  AESS Space and Aerospace Summit, Abdullah Gül University, Kayseri, Turkey, Dec 15, 2022.
- **Sun and the Solar System**
  Teacher Training Astronomy Seminar Series, Ankara Provincial Directorate of National Education, Ankara, Turkey, Dec 13, 2022.
- **Discovery of Two Exoplanets in the Kepler-451 Binary System**
  AESS Space Seminar, Abdullah Gül University, Kayseri, Turkey, Jul 18, 2022.
- **Discovery of Two Exoplanets in the Kepler-451 Binary System**
  ATLAS Space and Aerospace Society, Atatürk University, Erzurum, Turkey, Mar 26, 2022.
- **Discovery of Two Exoplanets in the Kepler-451 Binary System**
  GUHEM – Gökmen Space and Aviation Training Center, Bursa, Turkey, Mar 19, 2022.
- **Eclipse Timing Variations of HW Vir-type Binaries**
  Gr@v Seminar, University of Aveiro, Portugal, May 30, 2018.
- **Searching for Circumbinary Planets in Eclipse Timing Variations**
  9th Advanced Astrophysics Workshop of Maragha, Iran, Aug 13–17, 2017.

SCIENTIFIC PRESENTATIONS

- **A TESS Survey for Circumbinary Planets and Brown Dwarfs**
  247th Meeting of the American Astronomical Society, Phoenix, AZ, Jan 4–8, 2026.
- **Circumbinary Planets and Brown Dwarfs: Architectures, Detection Challenges, and Population Constraints**
  Mid-American Regional Astrophysics Conference, University of Missouri, Columbia, MO, Dec 4–5, 2025.
- **Constraining the Occurrence of Circumbinary Planets Through Eclipse Timing Variations**
  Great Lakes Exoplanet Area Meeting, University of Wisconsin–Madison, Madison, WI, Nov 6–7, 2025.
- **A TESS Survey for Circumbinary Planets and Brown Dwarfs**
  Washington University Physics Research Symposium, St. Louis, MO, Oct 31, 2025.

- **Constraining the Occurrence of Circumbinary Planets Through Eclipse Timing Variations**
  2025 NOIRLab Science Conference: The Solar System in Context, Tucson, AZ, Sep 29–Oct 2, 2025.
- **Characterizing Circumbinary Planet Populations with Multi-Method Surveys**
  McDonnell Center for the Space Sciences 50th Anniversary Symposium, St. Louis, MO, May 20–22, 2025.
- **Circumbinary Planet Occurrence via Eclipse Timing Variations**
  245th Meeting of the American Astronomical Society, National Harbor, MD, Jan 12–16, 2025.
- **Circumbinary Planet Occurrence via Eclipse Timing Variations**
  Mid-American Regional Astrophysics Conference, University of Kansas, Lawrence, KS, Dec 5–6, 2024.
- **Circumbinary Planet Occurrence via Eclipse Timing Variations**
  Washington University Physics Research Symposium, St. Louis, MO, Nov 20, 2024.
- **The TESS Spotlight on Detached Binary Systems via Eclipse Timings**
  TESS Science Conference III, MIT, Cambridge, MA, Jul 29–Aug 2, 2024.
- **Detecting Eclipse Timing Variation Planets with Other Methods**
  2024 Sagan Summer Workshop: Advances in Direct Imaging: From Young Jupiters to Habitable Earths, Caltech, Pasadena, CA, Jul 22–26, 2024.
- **The TESS Spotlight on Detached Binary Systems via Eclipse Timings**
  Emerging Researchers in Exoplanet Science Symposium IX, Cornell University, Ithaca, NY, Jul 10–12, 2024.
- **Eclipse Timing Variations of Evolved Eclipsing Binaries: Potential Targets for Meter-sized Telescopes in the Light of TESS Observations**
  Observing Techniques, Instrumentation and Science for Metre-class Telescopes III, Tatranská Lomnica, Slovakia, Sep 11–15, 2023.
- **Orbital Stability of Exoplanetary Systems Discovered via the Eclipse Timing Variation Method**
  22nd National Astronomy Congress, İzmir, Turkey, Sep 6–8, 2022.
- **Eclipse Timing Variations**
  IOTA/ME 2nd Workshop on Photometric Study of Binary Systems and Exoplanet Transits, Çukurova University, Adana, Turkey, Feb 4–7, 2020.
- **The NY Vir System Revisited in the Light of New Data**
  9th Meeting on Hot Subdwarfs and Related Objects, Hendaye, France, Jun 23–28, 2019.
- **Stability of NY Virginis System in the Light of New Eclipse Timing Data**
  Planetary Dynamics Conference, Max Planck Institute of Astronomy, Heidelberg, Germany, Jun 3–7, 2019.
- **Data Reduction of a Photometric Transit Observation**
  IOTA/ME Photometric Observations of Exoplanet Transits Workshop, Ankara University, Ankara, Turkey, Oct 15–18, 2018.
- **Preliminary ETV Analysis of HW Vir: Bayesian Approach**
  Summer School on Astronomical Data Analysis (ADAIX), Valencia, Spain, May 20–25, 2018.
- **Re-Investigating the Eclipse Timing Variation of 2M1938+4603**
  8th International Workshop on Occultation and Eclipse, Istanbul, Turkey, Mar 1–2, 2018.
- **Timing Sensitivity in Exoplanet Research**
  20th National Astronomy Congress, Erzurum, Turkey, Sep 5–9, 2016.
- **Kepler Light Curves with Different Morphologies**
  18th National Astronomy Congress, Malatya, Turkey, Aug 27–Sep 1, 2012.
